

# What is my town like?

## About the project

Hello, Would you like to joint to our project? my name is Emilia (Eva) and I am from Spain and my cofounder is Ayse and she is from Turquey. We are English Teachers . This project will be focus on WHAT IS OUR TOWN LIKE? We will work each month different activities related to our town, sports, food, important buildings. We will work with some APPS.

The aims are to improve English skills in students, know different European cultures, acquire new experiences using TIC tools, develop the cooperative work sharing their works and ideas, show students how important is to be in an etwinning project. We will work different activities each month from November to May.

### AIMS

Aims

- To enhance student autonomy and initiative.
- Develop students talents and creativity.
- Promote intercultural understanding.
- Improving students English skills.
- Develop students working in pair, teams, respect for others and taking responsibilities for actions.
- Gaining experience and basic skills in use of simple ICT tools.

### WORK PROCESS

- Teachers from different countries will be involved in the project.
- \_Creation of a plan at TwinSpace, including joint events, materials and tools.
- From the beginning, we will collect good practices and present them in paddlets.
- Teachers will set the details of the work and the division of responsibilities together.
- We will start work on the project from cooperation and we will end in May.

Deadline:

October- make the logo

November-Introduce students describing their town

December-Christmas cards and carols from each country

January- Sports

February- Important buildings

March- Food

April- Traditional costumes

May-evaluation and dissemination- video conferences...

### EXPECTED RESULTS

-The awareness and commitment of teachers and students will increase in the search for ways to learn.

Students will use their knowledge in practice .

AT the end of the project, the students will participate in a video conference through TwinSpace where they will share experiences.

Students and teachers will evaluate the process and the activities during the process.

Students will be more creative, tolerant and understanding for different cultures.  
Students and teachers will learn lot about different cities and cultures.
